

Your forests, your say

Visit us at the Whitecourt Trade Fair, to learn more about our next long-range forest management plan

Millar Western will be at the **2016 Whitecourt and District Chamber of Commerce Trade Fair (curling rink—booth 129), May 6 - 8**, to discuss progress in developing its Detailed Forest Management Plan (DFMP) for 2017-27. Our foresters will be on hand to walk you through the planning process and share maps showing potential harvesting locations over the next decade.

Can't make the trade fair? No problem. Just visit our website and click on **LATEST PROJECTS** and **NEW DETAILED FOREST MANAGEMENT PLAN**. In our Virtual Open House section, you will find maps, progress reports and other information about our DFMP, and learn how to provide your input.

Sustainable management of public forests is a shared responsibility, involving government, industry and other forest users, like you. By working together, we can ensure our forests always remain healthy, diverse and productive.
