

NOTICE FROM MILLAR WESTERN FOREST PRODUCTS LTD.

Application for Certificate of Variance

Millar Western is applying for a Certificate of Variance that would allow us to continue to operate the existing wood-waste incinerator at our Fox Creek sawmill until July 1, 2016, or 18 months beyond the current deadline. We have studied many alternatives for obtaining value from the wood residuals now disposed of through incineration: the extension will be used to implement the option that best meets all environmental and economic objectives.

We welcome your input
