

It's your forest. Have your say.

Sustainable management of public forests is a shared responsibility, involving government, industry and other forest users, like you. By working together, we can ensure our forests always remain healthy, diverse and productive.

This spring, Millar Western will be holding open houses to discuss both our **2015-16 Annual Operating Plan (AOP)** and **2017-27 Detailed Forest Management Plan (DFMP)**. Drop by any of the following locations to find out where we will be operating in the next year and let us know the forest values we should take into account in developing our long-range plans.

2015-16 AOP & 2017-27 DFMP OPEN HOUSES

Community	Date & Time	Location
Whitecourt	Wed., May 6, 3 to 7 pm	Lobby, Whitecourt Forest Interpretive Centre
