

Interested in the forest business?

Then consider serving on our Public Advisory Committee (PAC)

Millar Western has been active in north-central Alberta for over 90 years. In 2007, we formed our PAC to regularly connect with stakeholders from throughout our operating area, to hear their views and share information about our operations.

We currently have several openings on our PAC for representatives from the **recreation, education and oil & gas sectors**. PAC members meet about 4 times/year in Whitecourt to:

- * Review & provide feedback on our plans and performance
- * Receive reports on compliance with certification programs
- * Discuss issues of importance to the forest industry.

This is your opportunity to learn more about the forest sector, a green and growing industry that is integral to the regional economy. You don't need forestry expertise to join – just a desire to play a productive role in guiding the responsible management of renewable resources and manufacture of forest products.

If you are interested in becoming a PAC member, then please send your contact information and a brief bio or resume to mwfp@millarwestern.com, indicating "PAC Application" in the subject line. For more information, call Louise at 780-486-8270.

APPLICATION DEADLINE: SEPTEMBER 12, 2013
