

## Canada's Forests—Branching Out

Forestry in Canada has evolved over the years to meet society's changing needs and advancing technologies, embracing new partnerships, markets and applications.

At Millar Western, we are always looking for ways to branch out - diversifying our product lines, seeking new customers, employing advanced production methods and adopting industry-leading forest management practices, all with the aim of sustaining our company, environment and communities.

Join us as we celebrate National Forest Week 2010, marking the many ways in which our industry is heading in new directions.

National Forest Week  
September 19 to 25, 2010
