

LOG TRUCKS AHEAD!

The arrival of winter marks the start of the log haul and an increase in the number of logging trucks on roads in the **Whitecourt, Fox Creek, Swan Hills, Ft. Assiniboine, Blue Ridge, Barrhead and Westlock** areas. Millar Western is advising all motorists to exercise extreme caution around logging trucks, and to be mindful of these winter driving tips:

- Logging trucks have heavy loads requiring long stopping distances - **give them plenty of room**, especially when following and passing
- **Improve your visibility** - keep your lights on and free of snow, and signal your intent
- **Obey all speed limits** and other rules of the road.

Millar Western takes road safety seriously, so please report concerns to **Brian Colbourne at 780-778-2221, ext. 2241**, providing as much incident detail as possible.

This winter, don't let your
driving skills slide -
drive smart and stay safe
