

## Have your say on our proposed 10-year harvest plans

### OPEN HOUSE

**WHERE:** Classroom, Allan and Jean Millar Centre, Whitecourt

**WHEN:** Wednesday, October 5, 2016, 11 am to 3 pm

**WHY:** To share your views on our draft 10-year harvest plans

We are seeking stakeholder input into the **Preferred Forest Management Scenario (PFMS)**, one of the final steps in developing our 2017-27 Detailed Forest Management Plan for our Forest Management Agreement area. The result of two years' work, the PFMS proposes sustainable harvesting volumes and locations over the next 10 years, after accounting for a range of environmental, social and economic forest values identified by government and by stakeholders like you.

Can't make the open house? Then visit our **Virtual Open House** at [www.millarwestern.com](http://www.millarwestern.com). Click on Latest Projects —>New Detailed Forest Management Plan, to access the PFMS maps and other plan materials.

***Help us develop forest plans that reflect  
local interests and priorities.***
